The big black hat

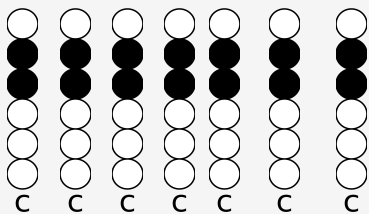

I met a man the oth-er day

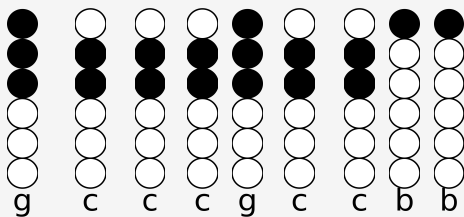

and he was dressed in a

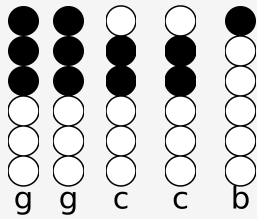

Ver-y strange way with a great

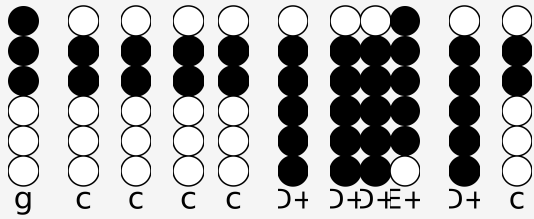

big hat with a big black brim

And that's not all a-round his an-kle

was a great big chain

And drag-gin on the chain was a big black ball
e.

I met a man the other day and he was dressed
in a very strange way
With a great big hat with a big black brim
And a black striped band and that's not all
And a pair of dark glasses on his nose
And a false moustache
And a pale pink sunshade held up high
