## Tin whistle tabs for: Riptide

You're the magician's assistant in their dream

Genre: folk-pop

Author/Performer: Vance Joy

Oh

Oh, and they come unstuck

## Chorus

Lady, running down to the riptide

Taken away to the dark side

I wanna be your left hand man

I love you when you're singing that song

And I got a lump in my throat

'Cause you're gonna sing the words wrong

There's this movie that I think you'll like

This guy decides to quit his job and heads to New York City

This cowboy's running from himself

And she's been living on the highest shelf

Oh, and they come unstuck

## **Chorus**

I just wanna, I just wanna know
